

Dedicated to providing  
*quality, and comprehensive  
healthcare services*

Live Doctor On Call

Increasing expenditures and the current shortage of doctors have our universities and schools to take on an increasing amount of healthcare costs.

**We want to help address a growing problem in today's generation.** We recognize that there is a strong mental health problem that is affecting countless students all over the country. While there is no one cause of depression, recent research points to children's stress levels rising during college.

**Live Doctor On Call** covers non-emergency care and mental health care. No need to go to urgent care facilities for common illnesses - we can certainly put healthcare right at your fingertips! At Live Doctor on Call, you will have access to healthcare when you need it most!
