Live Doctor On Call

Providing compassionate primary care for every veteran, in the comfort of their local community when they need it most. We aim to cater every veteran whenever they need care and wherever they are located

According to a research conducted by Harvard Medical School, 1.53 million Veterans are uninsured and 2 million can't afford care. Not just that. Another research by Harvard/Cambridge Hospital says that 1.7 million of Veterans who served have no health coverage.

Several possible barriers to accessing VA mental health care

- Transportation challenges
- Challenges associated with accessing care (for example, making appointments)
- Other obstacles that present challenges to obtaining mental health care

How Live Doctor On Call can change every veteran's life - by bringing a solution at their own home. A solution that's simple yet so effective.

With Live Doctor On Call's mental health consultation, we assure you it's secured, private and of course confidential. Our mental health consultation is not just about crisis management that is being handled by Master's Degree Counselors, but we also have highly competent, US Licensed Psychologists and Psychiatrists if ever you need to undergo a psychological or psychiatric consultation

Our very own Prescription program comprises of a Brand-name mail order program and a Walk-in pharmacy savings program. Save up to 80% on your brand-name medication through our mail-order program while you can save up to 55% from generic medication through our walk-in pharmacy savings program. Both programs does not need insurance, no paperwork to fill-out and we have a 24/7 customer service available to help you in identifying savings for your medication.

Our virtual health and wellness platform allows you to see a doctor without leaving the comfort of your home. Most veterans that are challenged in terms of transportation can definitely benefit from this, because our program is not just a simple virtual health and wellness platform, but also, it is available 24/7/365! Access a doctor when you NEED it most.
